PREFACE

This emergency procedure manual has been designed to provide a contingency plan for the Birmingham-Southern College community in the event of a campus emergency. While the guide does not address every conceivable situation, it does supply the basic guidelines necessary to cope with most campus emergencies.

This manual is the product of research with numerous emergency agencies, as well as colleges and universities throughout the state. Any procedural change(s) or suggestion(s) should be submitted for review to the Emergency Director.

Where and when applicable, the “Birmingham-Southern College Emergency Response Manual” should be adhered to by the entire College community.

NOTE: Unless otherwise noted, the Area Code for all phone numbers in this manual is 205.

PURPOSE

The basic emergency procedures outlined in this manual are designed to enhance the protection of lives and property through effective use of College and camps community resources. Whenever an emergency affecting the campus reaches proportions that cannot be handled by routine measure, the President, his designee, or Vice President for Administration & Governmental Affairs may declare a state of emergency.

MEDIA RELATIONS

Only authorized persons will speak to the media concerning BSC incidents. Generally, authorization will be coordinated through the Office of Communications. Under no circumstances should an employee of BSC speak to the media unless directed to do so.

BSC ALERT!

EMERGENCY TEXT MESSAGING SYSTEM

In the event of extreme incidents when the potential for loss of life exists, or during times when all other sources of communications within the campus community are not available, the BSC emergency alert system will be utilized.

This system, provided via text messaging, voicemail, and e-mail where applicable, is available to all current students, faculty, and staff at BSC that have opted into the program.

REPORTING EMERGENCIES

1. Report all emergencies to Campus Police at 226-4700!
2. IN AN EMERGENCY WHEN THE CAMPUS POLICE CANNOT BE REACHED
   DIAL: 226-4600, 226-4640, or 226-4773.
3. When calling, stay calm and carefully explain the problem and location to the
   Campus Police Dispatcher. DO NOT HANG UP UNTIL TOLD TO DO SO.
EMERGENCY EVACUATION PROCEDURES

1. Building Evacuation
   A. All building evacuations will occur on notification by the Building Coordinator, Campus Police, or by individual choice when the emergency dictates.
   B. When notification occurs, leave by the nearest marked exit and alert others to do the same.
   C. Assist disabled persons leaving the building! Do not use elevators in the event of fire, earthquakes, or other emergencies where you could become trapped in the elevator.
   D. Once outside, proceed to a clear area that is at least 100 feet away from the affected building. (To be determined by building coordinators.) Keep streets, fire lanes, hydrant areas and walkways clear for emergency vehicles and personnel.

2. Campus Evacuation
   A. The evacuation of all or part of the campus grounds will be announced by Campus Police or the Emergency Director.
   B. All persons are to vacate immediately the area in question and relocate to another part of the campus or location as directed.

BE SURE TO SIGN UP FOR THE BSC ALERT TEXT MESSAGING SYSTEM
FIRE

REPORT ALL FIRES TO THE CAMPUS POLICE!

1. Know the location of fire extinguishers, fire exits, and alarm systems in your area and know how to use them. Training and information is available from the Campus Police. CAUTION!! NEVER USE A WATER FIRE EXTINGUISHER ON AN ELECTRICAL FIRE.

2. If a minor fire appears controllable, IMMEDIATELY activate the building fire alarm and call the Campus Police. Then promptly direct the charge of fire extinguisher toward the base of the fire.

3. If an emergency exists, activate the building fire alarm.

4. On fires that do not appear controllable, IMMEDIATELY activate the building alarm and call the Campus Police. Evacuate all rooms, closing all doors to confine the fire and reduce oxygen -- DO NOT LOCK DOORS.

5. When the building fire alarm is sounded, an emergency exists. Walk quickly to the nearest marked exit and alert others to do the same.

6. Assist disabled persons in exiting the building! DO NOT USE THE ELEVATORS DURING A FIRE! Smoke is the greatest danger in a fire, so stay near the floor where the air will be less toxic.

7. Once outside, move to a clear area at least 500 feet away from the affected building. Keep streets, fire lanes, hydrants, and walkways clear for emergency vehicles and crews.

8. If requested, assist emergency crews as necessary.

9. A Campus Emergency Post may be set up near the emergency site. Keep clear of the command post unless you have official business.

10. DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a College official.

NOTE: If you become trapped in a building during a fire and a window is available, place an article of clothing outside the window as a marker for rescue crews. If there is no window, stay near the floor where the air will be less toxic. Shout at regular intervals to alert emergency crews of your location.

NOTE: Campus Fire Systems are monitored by a UL-approved monitoring company. When a system goes into alarm, the monitoring company first contacts the Birmingham Fire Dept., and then contacts the BSC CPD. BSC CPD responds immediately to the building in alarm in order to 1) assist the building’s occupants, 2) determine if an actual fire exists, 3) determine how building fire (sprinkler) pumps can be started, and 4) ascertain their locations within the building/structure.

The Fire Pump Operator:
When the fire alarm sounds, the fire pump operator checks the automatic
starting pump, starts it if it hasn’t already automatically, and keeps it operating until instructed to shut it down. Preferably, the person most familiar with the operation and care of the pumps should be assigned the job of fire pump operator in case it fails to start or is not running properly. If that person is unavailable, the person assigned to the job should be thoroughly trained in starting the pumps manually and should understand the pumps’ importance to fire protection.

NOTE: This recommendation assumes the fire pump is in a location safe for the fire pump operator in the event of a fire.

EARTHQUAKE

During an earthquake, remain calm and quickly follow the steps outlined below:

1. If indoors, seek refuge in a doorway or under a desk or table. Stay away from glass windows, shelves, and heavy equipment.
2. If outdoors, move quickly away from buildings, utility poles and other structures. CAUTION! Always avoid power or utility lines as they may be energized. Know your assembly point.
3. If in an automobile, stop in the safest place available, preferably away from power lines and trees. Stop as quickly as safety permits, but stay in the vehicle for the shelter it offers.
4. After the initial shock, evaluate the situation and if emergency help is necessary, call the Campus Police. Protect yourself at all times and be prepared for aftershocks.
5. Damaged facilities should be reported to Campus Police and Operations. NOTE: Gas leaks and power failures create special hazards. Please refer to the section on utility failures.
6. If an emergency exists, activate the building’s fire alarm.
7. If the building fire alarm is sounded, walk to the nearest marked exit and ask others to do the same.
8. Assist the disabled in exiting the building! Remember elevators are reserved for disabled persons’ use. DO NOT USE ELEVATORS IN CASE OF FIRE. DO NOT PANIC.
9. Once outside, move to a clear area at least 500 feet away from the affected buildings. Keep streets, fire lanes, hydrants and walkways clear for emergency vehicles and crews.
10. If requested, assist emergency crews as necessary.
11. A Campus Emergency Command Post may be set up near the emergency site. Keep clear of the Command Post unless you have official business.
12. DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a College official.
CHEMICAL OR RADIATION SPILL/EXPLOSION

1. Any spillage of a hazardous chemical or radioactive material is to be reported immediately to Campus Police who shall in turn contact the hazardous material member of the Emergency Response Team.
2. When reporting, be specific about the nature of the involved material and exact location.
3. The key person on the site should vacate the affected area at once and seal it off to prevent further contamination of other areas until arrival of Campus Police personnel.
4. Anyone who may be contaminated by the spill is to avoid contact with others as much as possible, remain in the vicinity, and give their name(s) to the Campus Police.
5. If an emergency exists in your building, activate the building fire alarm.
6. When the building fire alarm is sounded, an emergency exists. Walk quickly to the nearest marked exit, and alert others to do the same.
7. Assist disabled persons in exiting the building! Remember that elevators are reserved for disabled persons’ use. DO NOT USE ELEVATORS IN CASE OF FIRE. DO NOT PANIC.
8. Once outside, move to a clear area at least 500 feet away from the affected buildings. Keep streets, fire lanes, hydrants and walkways clear for emergency vehicles and crews.
9. If requested, assist emergency crews as necessary.
10. A Campus Emergency Command Post may be set up near the emergency site. Keep clear of the site unless you have official business.
11. DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a College official.

IMPORTANT: After any evacuation, report to your designated area assembly point. Stay there until an accurate head count is taken. The Building Coordinator will assist with the accounting of all building occupants.
EXPLOSION AND/OR AIRCRAFT DOWN (CRASH) ON CAMPUS

In the event a mishap occurs, such as an explosion or a downed aircraft (crash) on campus, take the following action:

1. Immediately take cover under tables, desks and other objects, which will give protection against falling glass or debris.
2. After the effects of the explosion and/or fire have subsided, notify the Campus Police Department. Give your name and location and the nature of the emergency.
3. If necessary, or when directed to do so, activate the building fire alarm.
4. If the building fire alarm is sounded, or when told to leave by College officials, walk quickly to the nearest marked exit and ask others to do the same.
5. Assist the disabled persons in exiting the building. Remember elevators are reserved for disabled persons. DO NOT USE ELEVATORS IN CASE OF FIRE. DO NOT PANIC.
6. Once outside, move to a clear area that is at least 500 feet from the affected building. Keep streets and walkways clear for emergency vehicles and crews. KNOW YOUR AREA ASSEMBLY POINT.
7. If requested, assist emergency crews as necessary.
8. A Campus Emergency Post may be set up near the disaster site. Keep clear of the command post unless you have official business.

IMPORTANT: After any evacuation, report to your designated assembly point. Stay there until an accurate head count is taken. The Building Coordinator will assist in the accounting for all building occupants.
CIVIL DISTURBANCE OR DEMONSTRATIONS

Most campus demonstrations such as marches, meetings, picketing, and rallies will be peaceful and non-obstructive. A student demonstration should not be disrupted unless one or more of the following conditions exist as a result of the demonstration:

A. Interference with normal operations of the College.
B. Prevention of access to offices, buildings or other College facilities.

If either of these conditions exist, Campus Police should be notified and will be responsible for contacting and informing the Emergency Director and/or the President of the College. Depending on the nature of the demonstration, the appropriate procedures listed below should be followed.

PEACEFUL, NON-OBSTRUCTIVE DEMONSTRATIONS

A. Generally, demonstrations of this kind should not be interrupted. Demonstrators should not be obstructed or provoked and efforts should be made to conduct business as normally as possible.
B. If demonstrators are asked to leave, but refuse to leave by regular facility closing time:
   * Arrangements will be made by the Campus Police Chief to monitor the situation during non-business hours or,
   * Determination will be made to treat the violation of regular closing hours as a disruptive demonstration. (See next section)

NON-VIOLENT, DISRUPTIVE DEMONSTRATIONS

A. In the event that a demonstration blocks access to College facilities or interferes with operation of the College:
   * Demonstrators will be asked to terminate the disruptive activity by the Emergency Director or designee.
   * The Emergency Director will consider having a photographer available. Key College personnel may be requested to go to the demonstration site in order to reason with the demonstrators. This may also include student leaders.
   * If the demonstrators persist in disruptive activity, they will be apprised that failure to discontinue the specified action within a determined length of time may result in disciplinary action including suspension or expulsion or possible intervention by the civil authorities. (See Directive A, p.24.)
   * Efforts shall be made to photograph or to secure positive identification to be used to facilitate later testimony.
   * After consultation with the President of the College or Emergency Director, it will be determined if further measures are required by the Campus Police or by civil authorities.
   * If the determination is made to seek intervention by civil authorities, the demonstrators should be so informed. Upon arrival of the Birmingham Police Department, the remaining demonstrators will be notified of the intent to arrest. (See Directive B, p.24.)
VIOLENT, DISRUPTIVE, DEMONSTRATIONS

In the event that a violent demonstration in which injury to persons or property occurs or appears eminent, the President, Provost, Vice President for Administration & Governmental Affairs, and the Vice President for Student Development shall be notified.

A. During Business Hours

* In coordination with Emergency Director, the Birmingham Police Department shall be notified by the Campus Police to photograph the events.
* The Emergency Director or designee will determine the need for a photographer to report to an advantageous position to photograph the events.
* The President, Emergency Director and other College officials who are deemed necessary shall consult to determine the need for an injunction.
* The BSC Campus Police will provide the BPD with a portable radio to serve as communication between the two agencies.

B. After Business Hours

* The Campus Police shall be immediately notified of the disturbance.
* The Campus Police, including the shift supervisor, shall investigate the matter and report and notify the Chief of Campus Police, Campus Police Deputy Chief, and the Emergency Director. In their absence, the President or his designee will be contacted.
* The Emergency Director will:

  1. Report the circumstances to the President.
  2. Notify key administrators and if appropriate, the administrator for the building affected.
  3. Notify the Director of Office of Communications.
  4. Arrange for a photographer.

NOTE: THE CAMPUS POLICE CHIEF SHALL RESERVE THE RIGHT TO REQUEST ASSISTANCE FROM THE BIRMINGHAM POLICE DEPARTMENT OR ELSEWHERE WITHOUT COUNSEL FROM OTHERS IF IT IS DEEMED ESSENTIAL TO THE SAFETY OF PERSONS INVOLVED.
DIRECTIVES ASSOCIATED WITH DEMONSTRATIONS

A. DIRECTIVE TO IMMEDIATELY TERMINATE DEMONSTRATIONS

(IDENTIFY SELF)

This assembly and the conduct of each participant are seriously disrupting the operations of the College and are in clear violation of the rules of the College. You have previously been called upon to disperse and terminate this demonstration. You have been given the opportunity to discuss your grievances in the manner appropriate to the College. In no event will the Administration of this College accede to demands backed by force. Accordingly, you are directed to terminate this demonstration. If you have not done so within 15 minutes,__________________ will, under the authority of the Board of Trustees, take whatever measures are necessary to restore order -- including calling for assistance from the Birmingham Police Department. Any student who continues to participate in this demonstration is subject to possible arrest and will also be subject to suspension.

B. DIRECTIVE TO IMMEDIATELY TERMINATE DEMONSTRATION WITH THE ASSISTANCE OF POLICE

You have previously been directed to terminate this demonstration and you have been put on notice as to the consequences of your failure to do so. Since you have chosen to remain in violation of the rules and regulations of the College, each of you is hereby suspended, subject to later review. The Police have now been called to assist in dispersing this assembly. Those who fail to leave immediately will be subject to arrest.

8. A Campus Emergency Command Post may be set up near the emergency site. Keep clear of the command post unless you have official business.

9. DO NOT RETURN TO AN EVACUATED BUILDING unless told to do so by a College official.

ELECTRICAL/LIGHT FAILURES

Since sufficient lighting may not always be present in emergency situations, it is advisable to keep flashlights available in buildings occupied after dark.

ELEVATOR FAILURE

If you become trapped in an elevator, use the phone to call the Campus Police. If the elevator does not have a phone, use the alarm on the front panel to signal for help.

PLUMBING FAILURE/FLOODING

Cease using all electrical equipment. Notify the Campus Police. If necessary, vacate the area.

SERIOUS GAS LEAKS

Cease all operations! DO NOT SWITCH ON LIGHTS OR ANY ELECTRICAL EQUIPMENT. Remember, electrical arcing can trigger an explosion! Immediately notify the Campus Police. Wind direction should be monitored and all emergency vehicles and crews should “up wind” from gas fumes.
VIOLENT OR CRIMINAL BEHAVIOR

8. If you are in a building and hear what you suspect to be gunfire, and you are unable to safely leave the area, you should attempt to lock/barricade yourself inside a room, turn the lights out and wait for authorities to notify you that it is safe to come out.

REPORT ALL INCIDENTS TO THE BIRMINGHAM-SOUTHERN COLLEGE CAMPUS POLICE!
MEDICAL AND FIRST AID (EPIDEMIC/POISONING)

CALL THE CAMPUS POLICE IF YOU NEED ASSISTANCE

3. In case of serious injury or illness, (AFTER CONTACTING THE CAMPUS POLICE) the following are desirable steps to be taken:
   A. Keep victim still and comfortable. DO NOT MOVE THE VICTIM.
   B. Ask victim, “Are you okay?” and “What is wrong?”

   E. Continue to assist the victim until help arrives.
   F. Look for emergency medical I.D., question victim and witnesses, and give all information to the Campus Police and/or the paramedics.

4. Every office should have a person trained in first aid and CPR. Training is available through the local American Red Cross and through the BSC Campus Police.

BSC Campus Police officers have been trained in first aid and CPR. CAMPUS POLICE SHOULD BE CONTACTED IN ALL EMERGENCIES. They are able to secure the proper assistance quicker than individuals. Also, they are able to coordinate with emergency personnel on the logistics of the emergency.
PSYCHOLOGICAL CRISIS

A psychological crisis exists when an individual is threatening harm to themselves or to others, or is out of touch with reality due to severe drug reactions or a psychotic break. A psychotic break may be manifested by hallucinations or uncontrollable behavior. A psychotic episode may also involve a person from a neighborhood hospital or a halfway house walk-away.

IF A PSYCHOLOGICAL CRISIS OCCURS

1. Never try to handle on your own a situation you feel is dangerous.

2. Notify the Campus Police of the situation, dial extension 4700. State clearly that you need immediate assistance. Give your name, your location and the area involved.
TORNADO/SEVERE WEATHER

THE FOLLOWING GUIDELINES SHOULD BE ADHERED TO WHEN THE NATIONAL WEATHER SERVICE ISSUES A “TORNADO WARNING” ACTIVATING THE COUNTY SIREN SYSTEM.

At this time, when the NWS issues a TORNADO WARNING, it is done so for entire counties in Alabama. While the potential tornado may be across the county from BSC, the campus will initiate the tornado plan immediately. Helpful items to take to your safe area would be a radio (battery powered preferably), and a flashlight if available.

The EMA activates the county siren system for TORNADO WARNINGS only. Additional soundings indicate that the warning has been extended, and not that the threat is over. There is no siren activated to indicate the termination of a warning. Thus, you should stay in your safe area until notified by the Campus Police or by the local media.

REMEMBER

If indoors, in class, residence halls, or elsewhere on campus, report to the pre-designated tornado “safe area” in your building. If that location is unknown seek refuge in a doorway, interior hallway, under a desk or table, on the lowest floor of the building. Stay away from windows and exterior doors. See building safe locations on page 30.

If outdoors and unable to get to shelter, seek a ditch or depression in the ground and lie flat on the ground. CAUTION: Avoid power or utility poles as they may be energized.

If in an automobile, stop as quickly as safety permits. Exit the vehicle and seek shelter in a ditch or depression in the ground and lie flat. CAUTION: Avoid power or utility poles as they may be energized.

Remain in the safe area until the warning has passed or when conditions permit.
