Want to learn more about what BSC's professors are up to?

Check out the second edition of the *Faculty Scholarship* guide, just released this fall and available on campus. The guide updates the first edition, which was published in 2004, and adds an incredible 80 pages of accomplishments, including books and articles, scientific discoveries, creative endeavors, and award-winning performances. As BSC Archivist Guy Hubbs writes in the forward, "The members of our faculty see teaching and research as two ways of approaching the same thing: learning."
